
Appendix G Protecting Controlled Unclassified Information (CUI) and Required Markings

This Appendix describes Controlled Unclassified Information (CUI) and defines the CUI categories and requirements for document markings that contain information identified as CUI in the Department of Defense (DoD) CUI Registry that are pertinent to the Environmental Restoration Program.

CUI is government-created or owned unclassified information that allows for, or requires, safeguarding and dissemination controls in accordance with laws, regulations or government-wide policies. CUI is sensitive information that does not meet the criteria for classification but must be protected in accordance with DoD Instruction (DoDI) 5200.48, Controlled Unclassified Information (CUI). CUI is **not** a classification level, such as Confidential, Secret or Top Secret. Information covered under CUI should be referred to “controlled as CUI” and should not be referred to as “classified as CUI”.

The purpose of the CUI Program is to protect information that does not meet the threshold for classification as national security or atomic energy information but requires some level of protection from unauthorized access or release. The CUI Program provides standardization across agencies and provides a uniform marking system. CUI markings **replace** For Official Use Only (FOUO) markings. FOUO is no longer an authorized marking on documents.

CUI Citations / References

Executive Order 13556, Controlled Unclassified Information, 10 November 2010

- Establishes an open and uniform program for managing information that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Government-wide policies

DoD Instruction (DoDI) 5200.48, Controlled Unclassified Information, 6 March 2020

- Establishes policy, assigns responsibility and prescribes procedures throughout the DoD per Executive Order 13556, Title 32 CFR, Part 2002 (Final Rule), DFARS Sections 252.304-7008 and 252.204-7012
- Established the official DoD CUI Registry

DoDI 5230.24, Distribution Statements on DoD Technical Information, 10 January 2023

- Establishes policies and procedures for assigning distribution statements on technical information
- Denotes the extent to which technical information is available for secondary release and distribution without additional approvals or authorizations
- Establishes standardized framework and markings for managing, sharing, safeguarding and distributing technical information in accordance with national and operational security, privacy, records management, intellectual property, federal procurement, export-control policies, regulations and laws
- Aligns marking procedures for controlled technical information (CTI) in accordance with procedures in DoDI 5200.48
- CUI markings **do not replace** Distribution Statements. CUI markings **are required in addition to** Distribution Statements (see Appendix N)

The DoD CUI Registry mirrors the Official CUI Registry issued by the National Archives and Records Administration (NARA). The Official CUI Registry identifies other CUI categories not specific to the Defense Index but may apply or relate to information that may be included in Environmental Program documents. It is important to know and understand that both indices and categories and their associated markings in order to recognize other agencies' CUI and handle information accordingly. The indices and categories listed on both Registries identify the safeguarding and dissemination requirements and are subject to change based on changes in law, regulation or government-wide policies.

The DoD CUI Registry is available at <https://www.dodcui.mil/>.

The Official (NARA) CUI Registry is available at <https://www.archives.gov/cui>.

Assistant Secretary of Defense, Energy, Installations, and Environment Memorandum, "Managing Controlled Unclassified Information in Department of Defense Environmental Cleanup Data and Reports", 24 August 2023

- Designates privately owned residential drinking water wells as CUI and will not release names and addresses without written consent of the property owner.
- Latitude and longitude of residential drinking water wells will not be released or associated with specific DoD sampling results without written permission from, or notification to, the property owner.

- Requires Right of Entry (ROE) agreements include notification to the landowner that the DoD will share latitude and longitude information associated with privately owned drinking well sampling results, if permission to access the property is granted. Information may be shared with State regulatory agencies supporting DoD's cleanup and may become publicly available
- Provides language for ROE agreements established after 30 September 2023 (See Appendix L for including ROE agreements in the ER official record file)

Secretary of Defense, Director of Administration and Management Determination, 19 September 2023

- Defines Department of Defense Real Property Inventory Data and Installation Geospatial Information and Services (IGI&S) Data as DoD critical infrastructure security information (DCRIT) per 10 U.S.C. § 130e
- Only include the following for publicly releasable figures/maps (no CUI):
 - Environmental Restoration GIS data
 - Publicly available aerial imagery with a resolution of 0.3 meters or worse
- Data is exempt from disclosure under FOIA Exemption 3 (5 U.S.C. § 552(b)(3))
- Additional guidance concerning GIS data (as well as products derived from GIS data) as it relates to DCRIT, should be followed in accordance with the OSD Installation Geospatial Information and Services (IGI&S) Security Classification Guide

Assistant Secretary of Defense, Energy, Installations, and Environment Memorandum, “Publicly Available Legacy Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Documents and Controlled Unclassified Information”, 28 June 2024

- Clarifies expectations for safeguarding CUI regarding publicly available legacy ER Program Administrative Record and Post Decision documents

CUI Types

There are two designations for CUI – Basic and Specified (SP).

CUI Basic is the subset of CUI for which the authorizing law, regulation or government-wide policy does **not** require specific handling or dissemination controls. Agencies handle CUI Basic according to the uniform set of controls set forth in DoDI 5200.48 and the DoD CUI Registry.

CUI Specified (SP) is the subset of CUI for which the authorizing law, regulation or government-wide policy contains specific handling controls that it requires or permits

agencies to use that differ from those for CUI Basic as provided below. See Table 1 for CUI types associated with each category. The NARA and DoD CUI registries provide current and complete listing of CUI categories and their associated types.

- The underlying authority defines the handling controls
- Requires Unique Markings
- Enhanced Physical Safeguards
- Limits who can access information
- Specified markings begin with “SP” (i.e., SP-BUDG)
- CUI Specified is **not** a higher level of unclassified information

CUI Categories

The DoD and NARA CUI Registries provide the full listing of categories that apply to multiple agency documents. Not all categories apply to NAVFAC Environmental document deliverables. See Table 1 for **typical** CUI categories that may apply to Environmental documents. Consult with your NAVFAC Records Manager and/or NAVFAC Counsel before using a CUI category that is not typically applied to Environmental Restoration documents.

Limited Dissemination Controls (LDCs)

Limited Dissemination Controls (LDCs) facilitate control, secondary sharing, decontrol and release without the need to repeatedly obtain approval or authorization from the controlling DoD office. LDCs identify the audience deemed to have an authorized lawful government purpose to use the CUI.

LDCs are included on the unclassified documents and other materials when the CUI requires access restrictions, including those required by law, regulation or government-wide policy.

The absence of an LDC on a document means anyone with an authorized lawful government purpose is permitted access to the document. However, this does **not** imply a document, or the information can be publicly released. All CUI documents must go through a public release review in accordance with DoDI 5230.09, Clearance of DoD Information for Public Release and DoDI 5230.29, Security and Policy Review of DoD Information for Public Release. See Table 2-A for the approved LDCs, markings and their descriptions and Table 2-B for dissemination control and Distribution Statement marking alignments. Tables 2-A and 2-B include LDCs that typically apply to Environmental Restoration Program documents. A complete list of LDCs can be found in DoDI 5200.48.

Required CUI Markings on Technical Documents

Before marking a document as CUI, review and evaluate if any information included in the document meets one or more CUI categories listed in the CUI Registry. Each document must be reviewed independently. It is important to note that prior document versions or addenda issued in the future may not contain the same information. One document version may contain CUI, while another version may not. CUI markings or the absence of markings, on an earlier document version does not determine whether CUI markings are required on a future document. Evaluate each document independently when determining CUI content and appropriate markings.

Documents containing CUI **must** include the acronym “CUI” in the banner (header) and footer on the document’s first or cover page **and** each page containing controlled information.

CUI markings are **not** required if a document does not contain controlled unclassified information. Distribution Statements apply to classified, CUI and unclassified information and **are** required on all documents, including deliberative and pre-decisional documents as outlined in Appendix L. Distribution Statements are required **in addition to** CUI markings.

Correspondence related to document deliverables may not necessarily have CUI markings or the same CUI markings as the related report. CUI markings are applied to individual documents and may change between versions.

FOUO markings are **no longer authorized on DoD documents**.

Required Markings on Pre-Final Documents

NAVFAC requires supplemental administrative markings on all pre-final documents (e.g., Working/Internal/Preliminary Draft, Draft, and Draft Final) along with the CUI markings, if applicable, to inform recipients of the deliberative and pre-decisional status of documents. When distributing pre-final documents outside of NAVFAC, use Distribution Statement F and include a Dissemination List (see Appendix V for format and placement of the List). When pre-final documents also include CUI content, line 4 of the Designation Indicator Block shall include Dissemination Control of “DL ONLY (see next page)” accompanied by the Dissemination List. Pre-decisional status is **not** a CUI category therefore, CUI markings are not required on pre-final documents **unless** the document also includes CUI content.

Do **not** commingle supplemental administrative markings with or incorporate into the CUI banner or footer markings. Supplemental administrative markings may not duplicate any marking in the CUI Registry. See Figure 1 for the approved markings and placement of supplemental markings for deliberative and pre-decisional documents.

Figure 1 – Supplemental Administrative Marking **with** CUI Content

Designation Indicator Block

The CUI Designation Indicator Block is required on the **first/cover page only** of all documents containing CUI. Do **not** include an Indicator Block when there is no CUI included in the document. The Indicator Block is located in the lower right corner and must include the following.

- **Line 1:** Controlled by: DoD Component making the determination
- **Line 2:** Controlled by: Office making the determination
- **Line 3:** CUI Category: Identify all types of CUI contained in the document. Must be listed alphabetically

- **Line 4:** Dissemination Controls or Distribution Statement – see Tables 2A and 2B for LDCs, if appropriate or applicable. When citing the Distribution Statement, state the letter only. (Full Distribution Statement is required on all documents regardless of whether the document contains CUI)
- **Line 5:** Use the specific NAVFAC Command group e-mail. See Table 3 for Command specific e-mails.

Ensure there is sufficient space to include the Indicator Block on correspondence containing CUI. The Indicator Block is included at the bottom right on the first page of multi-page correspondence. For single page correspondence, include the Indicator Block below the signature block and above the Distribution Statement. See Figures 2 and 3 for placement of the Designation Indicator Block on correspondence and reports.

CUI

Figure 3 – CUI Markings on Reports

Portion CUI Markings

Portion markings are required on commingled documents **only**. Commingled documents are defined as classified documents that also include CUI and/or unclassified information.

Portion markings on **CUI only** documents will not be accepted by NAVFAC. CUI only documents containing portion markings will require all portion markings to be removed and resubmitted / redistributed to all original recipients.

Environmental Restoration documents **should not** contain classified information. Contact the NAVFAC Project Manager or Records Manager if classified or commingled information is required to be included in documents for required markings, handling and distribution. Do **not** submit documents containing classified information to the Records Manager for inclusion into NIRIS. Documents containing classified or commingled information will **not** be loaded into NIRIS.

E-mail CUI Markings

E-mails containing or include attachments with CUI must include CUI markings as indicated in Figure 4. All e-mails containing CUI **must be encrypted** when transmitted.

- Subject Line must **always** begin with “CUI”
- When CUI is included in the body of the e-mail, the following additional markings are required:
 - Include “CUI” in the banner (header/top) and footer (bottom) within the e-mail communication
 - Designation Indicator Block must also be included (placed at the bottom right of the e-mail)
- When the body of the e-mail does **not** contain CUI, but attachments contain CUI, the body of the e-mail does **not** include CUI markings. The Subject line must still begin with “CUI”.
- When attachments contain CUI, the file name must include “CUI” as the prefix of the file name
 - The attached document must also include CUI markings in the banner (header) and footer and on each page containing CUI
 - Attached document must also include the Designation Indicator Block at the bottom right of the first/cover page only

- Do **not** include portion markings for CUI only e-mails. Refer to portion marking requirements above if classified or commingled information is included in e-mails.

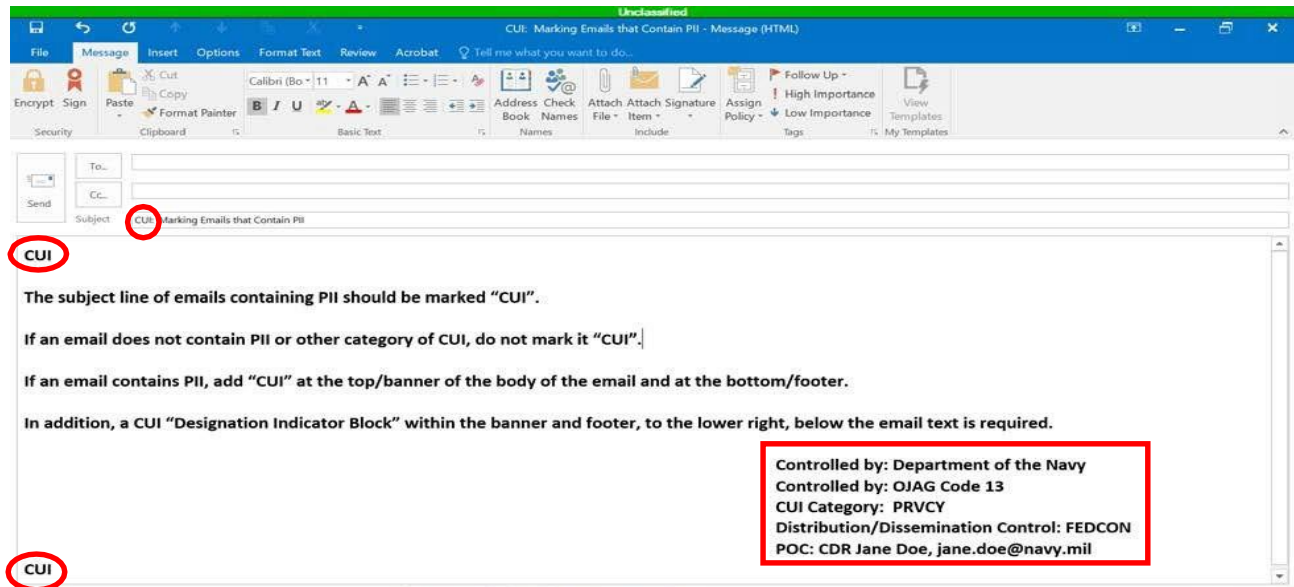

Figure 4 – CUI E-Mail Markings

Electronic Media CUI Markings

Electronic media containing CUI must include CUI markings as indicated below. CD/DVDs, external / removable hard drives, thumb drives (non-NMCI computers) and other media issued or used by civilian, military and contractors must include CUI markings. CUI markings may be printed on the CD/DVD label in lieu of applying the self-adhesive label below (SFs 901 or 903). The self-adhesive label(s) must be placed on media which does not include pre-printed labels such as removable hard drives. Electronic file names, including PDFs and native source files, etc., **must** begin with “CUI”. For example, “CUI_file_name.pdf”.

- Use Standard Forms (SF) 902 or SF 903 – CUI Media Labels

SF 902

SF 903

CUI Resources

Training

- Mandatory annual DON training for NAVFAC civilian, military and contractor personnel **with a government issued Common Access Card (CAC)** via NMCI computers is available at:
 - **Waypoints for Military / Civilian Personnel:**
<https://don.csod.com/ui/lms-learner-home/home>
 - **TWMS for Contractor Personnel:**
https://twms.dc3n.navy.mil/selfservice/online_training_NEW/modules/DoD_mandatory_Controlled_Unclassified_Information_CUI_Training_686564_T/cui_resources.html
- General training is also available at the National Archives and Records Administration (NARA) CUI Registry website at: <https://www.archives.gov/cui>.

CUI Media Self-Adhesive Labels – Available for Purchase

- Government Purchase:
https://www.gsaadvantage.gov/advantage/ws/main/start_page?store=ADVANTAGE
 - Disks / Hard Drives / Computers: (SF 902 2.125 inches X 1.25 inches)
NSN: 7540-01-679-3318
 - USB Drives*: (SF 903 – 2.125 inches X .625 inches)
NSN: 7540-01-679-3319
- * USB Drives are **not** authorized for use on NMCI computers.
- Self-Adhesive labels are also available commercially from <https://cuisupply.com/>.

TABLE 1 – CUI CATEGORIES

CUI Category	CUI Type	CUI Marking	Description	Index Group
<p>Archaeological Resources</p> <p>Distribution Statement Reason: Specific Authority</p> <p>Citation:</p> <p>16 USC § 470hh</p>	<p>Basic</p>	<p>ARCHR</p>	<p>Information about the nature and location of any archaeological resource for which the excavation or removal requires a permit or other permission.</p> <p>Examples: Archaeological site locations, directions to or coordinates of the site, identification on maps or figures, etc.</p>	<p>Natural and Cultural Resources</p>
<p>General Critical Infrastructure</p> <p>Distribution Statement Reason: Vulnerability Information (Citation not required in the Distribution Statement)</p> <p>Citation:</p> <p>10 USC Section 130(e)</p>	<p>Basic</p>	<p>CRIT</p>	<p>Systems and assets, whether physical or virtual, so vital that the incapacity or destruction of such may have a debilitating impact on the security, economy, public health or safety, environment, or any combination of these matters, across any Federal, State, regional, territorial, or local jurisdiction.</p> <p>Examples: Active fuel or electrical lines, power or water treatment plants, drinking water wells, runways, etc.</p>	<p>Critical Infrastructure</p>

CUI Category	CUI Type	CUI Marking	Description	Index Group
<p>DoD Critical Infrastructure Security Information</p> <p>Distribution Statement Reason: Vulnerability Information (Citation not required in the Distribution Statement) Citation:</p> <p>10 USC Section 130(e)</p>	Basic	DCRIT	<p>Department of Defense critical infrastructure security information covered by a written determination by the Secretary of Defense under subsection (a) or designated under subsection (b) that is provided to a State or local government shall remain under the control of the Department of Defense.</p> <p>Information that, if disclosed, would reveal vulnerabilities in the DoD critical infrastructure and, if exploited, would likely result in the significant disruption, destruction, or damage of or to DoD operations, property, or facilities, including information regarding the securing and safeguarding of explosives, hazardous chemicals, or pipelines, related to critical infrastructure or protected systems owned or operated on behalf of the DoD, including vulnerability assessments prepared by or on behalf of the DoD, explosives safety information (including storage and handling), and other site-specific information on or relating to installation security.</p> <p>Examples: Real Property Inventory Data; certain Installation Geospatial Information and Services (IGI&S) Data; certain maps, diagrams, drawings of internal infrastructure, Security of weapons storage facilities, Structure vulnerabilities</p>	

CUI Category	CUI Type	CUI Marking	Description	Index Group
<p>Health Information</p> <p>Distribution Statement Reason: Specific Authority</p> <p>Citation: 18 USC 4247(e)</p>	Basic	HLTH	<p>As per 42 USC 1320d(4), “health information” means any information, whether oral or recorded in any form or medium, that (A) is created or received by a health care provider, health plan, public health authority, employer, life insurer, school or university, or health care clearinghouse and (B) relates to the past, present or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present, or future payment for the provision of health care to an individual.</p> <p>Example: Physician’s letters or certifications providing medical clearance to use PPE.</p>	Privacy
<p>Historic Properties</p> <p>Distribution Statement Reason: Specific Authority</p> <p>Citation: 16 USC § 470W-3</p>	Specific	SP-HISTP	<p>Related to the location, character, or ownership of historic property.</p> <p>Examples: The head of a Federal agency or other public official receiving grant assistance pursuant to the act, after consultation with the Secretary, shall withhold from public disclosure information about the location, character, or ownership of a historic property when disclosure may cause a significant invasion of privacy; risk harm to the historic property; or impede the use of a traditional religious site by practitioners.</p>	Natural and Cultural Resources

CUI Category	CUI Type	CUI Marking	Description	Index Group
<p>Legal Privilege (Includes Attorney Work Product and Attorney Client)</p> <p>Distribution Statement Reason: Specific Authority</p> <p>Citation: 28 CFR 16.23</p>	Basic	PRIVILEGE	<p>Includes any attorney work-product privilege, attorney-client privilege, governmental privilege, or other privilege recognized under Federal, State, or foreign law. Note: There are two limited dissemination control markings for this category: Attorney Work Product (AWP) or Attorney Client Privilege (AC). These limited dissemination control markings (AWP, AC) may only be used on information protected under the CUI “Legal Privilege” category.</p>	Legal
<p>Privacy Information</p> <p>Distribution Statement Reason: Specific Authority</p> <p>Citation: 5 USC 552a(b)</p>	Basic	PRVCY	<p>Information referred to as Personally Identifiable Information (PII). PII embodies information that can be used to distinguish or trace an individual’s identity, either alone or when combined with other information that is linked or linkable to a specific individual.</p> <p>Examples: Home address, e-mail, phone number, SSN (including truncated), employee ID number, personal vehicle license plate number, medical info, etc.</p> <p>Document Signatures: Wet and all forms of electronic signatures on ER,N and BRAC documents will not be considered CUI. Digital signatures without the DoD ID number are recommended. Digital signatures with DoD ID numbers and paired with other PII will be considered CUI.</p> <p>Professional Registration / License: Not considered CUI.</p>	Privacy / Provisional

CUI Category	CUI Type	CUI Marking	Description	Index Group
<p>General Proprietary Business Information</p> <p>Distribution Statement Reason: Proprietary Business Information (Citation not required in the Distribution Statement)</p> <p>Citation:</p> <p>41 USC § 423(a)(1)</p>	Basic	PROPIN	<p>Material and information relating to, or associated with, a company's products, business, or activities, including but not limited to financial information; data or statements; trade secrets; product research and development; and future product designs and performance specifications.</p> <p>Example: Laboratory SOPs marked as business confidential/proprietary, information concerning or relating to trade secrets, processes, or are commercial or financial and confidential or privileged, confidential business information</p>	Proprietary Business Information
<p>Operations Security</p> <p>Distribution Statement Reason: Vulnerability Information (Citation not required in the Distribution Statement)</p> <p>Citations:</p> <p>DoDD 5205-02E; DoDM 5205.02</p>	Basic	OPSEC	<p>Critical information determined to give evidence of the planning and execution of sensitive (frequently classified) government activities after going through a formal systematic vetting process in accordance with National Security Presidential Memorandum Number 28. This process identifies unclassified information that must be protected. It almost always results from an agency's official OPSEC program or is otherwise commonly approved for use by the CUI Senior Agency Official.</p> <p>NOTE: Information on your organization's Critical Information List (CIL) MAY BE CUI. It depends on what information is included in your document and how it is stated. To use the OPSEC category, the information must be on the CIL. But not everything on the CIL will be CUI.</p> <p>Example: Security procedures or personnel; communications systems; organizational charts</p>	Intelligence
<p>Sources: NARA (https://www.archives.gov/cui) and DoD (https://www.dodcui.mil/) CUI Registries reviewed on 10/28/2024</p>				

TABLE 2-A – LIMITED DISSEMINATION CONTROLS (LDCs)

Limited Dissemination Control	Marking	Description
Federal Employees Only	FED ONLY	<p>Dissemination authorized only to employees of the U.S. Government executive branch agencies or armed forces personnel of the U.S. or Active Guard and Reserve.</p> <p>Note: This LDC does not include non-federal governmental agencies. Not appropriate for distribution to state or local government agencies. See DL ONLY LDC.</p>
Federal Employees and Contractors Only	FEDCON	<p>Includes individuals or employees who enter into a contract with the U.S. to perform a specific job, supply labor and materials, or for the sale of products and services, so long as dissemination is in furtherance of the contractual purpose.</p> <p>Note: This LDC does not include non-federal governmental agencies. Not appropriate for distribution to state or local government agencies. See DL ONLY LDC.</p>
No Dissemination to Contractors	NOCON	<p>Intended for use when dissemination is not permitted to federal contractors, but permits dissemination to state, local, or tribal employees.</p>
Dissemination List Controlled	DL ONLY (See Next Page)	<p>Dissemination authorized only to those individuals, organizations or entities included on an accompanying dissemination list.</p> <p>Note: This LDC is appropriate for dissemination to state or local agencies. Use this LDC for pre-final documents. Note that dissemination to specific name individuals restricts access to un-named agency personnel. DoD recommends dissemination to the agency rather than a named individual to ensure continued access by the agency when personnel are no longer employed by the agency.</p>

DL ONLY (See Next Page) is used only when there is a specific organization, agency or list of individuals authorized to receive the document and none of the other LDCs apply. **The list must be included in or attached to the document.** Include the full dissemination list after the document **cover** page of a report (2nd page). See Appendix V Dissemination List template.

TABLE 2-A – LIMITED DISSEMINATION CONTROLS (LDCs) (continued)

Limited Dissemination Control	Marking	Description
Display Only	DISPLAY ONLY (See Next Page)	Information is authorized for disclosure to a foreign recipient, but without providing them a physical copy for retention to the foreign country(ies) or international organization(s) indicated, through established foreign disclosure procedures and channels.
Attorney Work Product	ATTORNEY-WP	Dissemination of information beyond the attorney, the attorney's agents, or the client is prohibited, unless specifically permitted by the overseeing attorney who originated the work product or their successor.

TABLE 2-B – LIMITED DISSEMINATION CONTROLS (LDCs) AND DISTRIBUTION STATEMENT ALIGNMENTS

NEW LDC	ALIGNMENT TO CURRENT
NONE – Publicly Releasable AFTER Review	DISTRO A
Federal Employees Only (FED ONLY)	DISTRO B
Federal Employees and Contractors Only (FEDCON)	DISTRO C
No Dissemination to Contractors (NOCON)	
Dissemination List Controlled (DL ONLY) *	DISTRO F
Dissemination List – (Include Separate List for Government Only) *	DISTRO E
Dissemination List – (Include Separate List for Government and Contractors Only) *	DISTRO D
<p>* The Dissemination List limits and restricts access to the specified agencies, organizations, groups or individuals only and must accompany the document. An authorized specified individual no longer with an agency or organization does not transfer authorization to the agency or organization. Therefore, it is highly recommended that specific individuals are not named for dissemination/distribution to local or State government agencies. Documents may be mailed or e-mailed to specific individuals; however, identify the agency, organization or group name and mailing address on the Dissemination List included in the document.</p>	

TABLE 3 – COMMAND CUI E-MAILS

The following Command specific e-mails are to be used in Line 5 of the Designation Indicator Block on the document cover page for all documents containing CUI content. Do **not** use individual's e-mail address.

NAVFAC COMMAND	REQUIRED E-MAIL
Atlantic	navfac_lant_ev3_cui@us.navy.mil
